AC®
NEWDALE
2 Row Malt Barley

2 Row Malt Barley

AC® Newdale is a 2 row malt specialty barley that is known for good agronomics and good malting and brewing characteristics.

Highlights

- High yielding, 113%* of AC Metcalf
- Good standability
- Strong disease package, “I” to FHB
- Retains malting quality under tough harvesting conditions

*Source: 2017 Sask Seed Guide

Insights

“For malting opportunities with AC® Newdale contact Canada Malt or your local malting barley buyer.”

- Herman Wehrle, Director of Market Development, FP Genetics Inc.
